**CSTS** (Construction Safety Training System) certificate is required at all industrial construction sites. **Safe Food Handling** may be required for camp workers. **OSSA** may be required for site access. Phone Keyano College at 780-715-3903, register online with Fort McMurray Construction Association [www.fmca.net](http://www.fmca.net) or contact training providers at [www.woodbuffalo.net/trainSAFE.html](http://www.woodbuffalo.net/trainSAFE.html).

## Tips: Finding janitorial, camp services and security work

- Oil sands companies usually contract out their janitorial, camp services and security work.
- Work camps are located at operating oil sands mines, exploration camps, and at mine sites under construction. The largest camps are at operating surface mining sites and sites that are under construction.
- Contact contracted companies directly or visit their websites to see if they are hiring.
- The Oil Sands Project Report lists all oil sands projects by status (operating, construction) and has contact info for all mine sites.
- For up-to-date information and contact information on oil sands projects, see the *Oil Sands Project Report* online at [woodbuffalo.net/linksRESRepo.html](http://woodbuffalo.net/linksRESRepo.html)
